Fullstack Developer with more than three years of experience in software engineering focused on backend technologies and architectures. Contributed to analyzing, and building multi-platform systems, varying from small and MVP projects to enterprise-level solutions, have a strong background in Node.js, Javascript, NestJs, Typescript, Next.js seeking a position as a fullstack developer.

Tech Stack: NestJs - Next.js (You can see my coding level from [here](#))

Skills

Proficient:

NestJs, Node.js, Typescript, Javascript, Postman, Git, Gitlab, GitHub, bitbucket, Adobe XD, UI/UX, SQL, Postgres, MySQL, SQLServer, Render, Railway, Firebase, Prisma, i18n-nest, Swagger, Redis, Socket io, SSE, WebRTC

Familiar:

Next.js, Vite, HTML, CSS, SASS, Bootstrap, webpack, SPA, React.js, Zustand, Redux, React Query, React Router, React hook forms, React Table, zod, tailwindcss, lucid react, shadcn/ui, i18next, AWS, Adobe XD, material design, stripe, paypal, ffmpeg, Grafana, Prometheus, Docker, Mailtrap, React Native, react-native-paper, mmkv, expo, sequelize, meilisearch

WORK EXPERIENCE

Fullstack Next.js/NestJS Developer, Khoshnaw— On-site ([Pictures](#))

Building multiple solutions that push company forward Feb 2024 - Jan 2025

Development:

- Working on solution that helps the technician to be more acknowledge and provide him information about the device that needs repairing (problem reason, examination methods, solution track)
- Building examination platform for technicians by assisting them with multiple exams that test the technicians improvement and employees in general inside the company
- In both Backend/Frontend sides I worked on very complex structure and custom components that makes the integration from frontend, mobile to backend easy as possible with Typescript language

Stack. very clean code, NestJs, typescript, task-scheduling, swagger, APIs handlers, prisma, i18n-nestjs, postgres, Next.js, i18next, shadcn/ui, react-hook-form, zod, plate, axios, zustand, tailwindcss, React Native, expo, mmkv, react-native-paper, react-native-webview

Backend Node.js/NestJS Developer, Alajazary— Contract ([Pictures](#))

Working on backend side of Azizan application Aug 2023 - Oct 2023

Development:

- Unlock the possibilities of NestJs from making API handlers, crons, Socket io to WebRTC for real time

- communication
- Implementation the upload videos functionality then cut of the uploaded video to multiple videos with various resolutions using ffmpeg lib
- Adding Firebase push notification feature

Stack. NestJs, typescript, task-scheduling, swagger, Socket io, WebRTC, ffmpeg, firebase, crons, multer, prisma, sql server, i18n-nest

Backend Node.js/NestJS Developer, Pioneers — Remote [\(Pictures\)](#)

Create complex NestJs backend for "Sadeed" Ecommerce platform May 2023 - June 2024

Development:

- Building large scale Nest.js project that connect sellers to their customers whenever they be and make process of presentation and sell their products (physical or digital) more easier
- Implementing many features like multiple SMTP servers, localization, complex authorization and much much more.

Stack. NestJs, Node.js, typescript, prisma, swagger, mailer, validation, postgres, i18n, task-scheduling, sse, stripe, paypal, payoneer, google & facebook & linkedin auth, complex architecture

Projects

Tech Examination - (Nov 2024 - Dec 2024) - [\(Pictures\)](#)

It's a complete solution that tests the level of technicians and based on the technicians exam results they shape their learning curve in the right way.

I build the structure of this project based on the previous project and I added many custom components that makes the development process very quick (custom forms comp, filter, buttons-pop ups, sidebar....) based on shadcn UI library

(Tech: [Clean Code](#), NestJs, Next.js, typescript, multer, swagger, prisma, multer, task-scheduling, React, React hook forms, zod, shadcn/UI, Tailwindcss, lucid-react, React Query, React table, zustand, Adobe XD, Plate editor)

Tech Guidance - (May 2024 - Sep 2024) - [\(Pictures\)](#)

It's fullstack solution (frontend, backend, mobile) that helps technicians to repair LG/Carrier/Whirlpool devices by following the docs that are provided in their mobile application.

The most important thing that the code base for these three platforms is a clean unified typescript code that makes the integration between frontend and backend easy and fast as possible

(Tech: [Clean Code](#), NestJs, typescript, multer, React, Vite, React hook forms, zod, shadcn/UI, Tailwindcss, React Query, React Table, zustand, React-native, mmkv, expo, material-design, react-native-webview)

Herafi - (Oct 2020 - Jun 2021) - [\(Pictures\)](#)

It's a platform that connects craftsmens with their clients and enables clients to search for the best and closest craftsman to them in an easy way. This project was our graduation project that passed 98/100 considered to be from the best graduation projects of our year ever.

(Tech: Node.js, JWT, helmet, multer, crud, mysql, winston, C#, WinUI, CommunityToolkit, dapper, animation, Adobe xd, telerik, acrylic, Refit)

MovieTube - (Nov 2020 - Feb 2021) - ([Pictures](#))

It's a movie streaming platform that delivers high quality videos to movie watchers on their client apps like what YouTube actually does.

(Tech: Node.js, security, multer, crud, mysql, C#, WinUI, CommunityToolki, animation, Adobe xd, acrylic, effects, Refit)

Hojozat - (Mar 2020 - Jun 2020) - ([Pictures](#))

It's a hotel booking system that helps the new visitors of a country and even the citizens of the country themselves to search on the available brand's hotels and compare room bookings prices between the hotels and select the better ones for them.

(Tech: security, upload, APIs, mysql, C#, WinUI, CommunityToolk, Adobe xd, acrylic, Refit)

Certificates

AWS Cloud Technical Essentials, Coursera Jan 2024

Developing Back-End Apps with Node.js and Express, Coursera November 2023

ICDL, Royal-Institute June 2019

Data Analyst, Udacity November 2018

Fullstack Developer, Udacity April 2018

Programming using C#, CPC-Center November 2017

EDUCATION

Bachelor in Informatic Engineering, Aleppo University-*Aleppo*

OCT 2022 - First-Class

Software design and architecture, Software design pattern, Object-oriented programming (OOP), Unified modeling language (UML) Web service, Representational state transfer (REST), Compiler, Algorithm, Relational database, and Information retrieval subjects are all covered.

Volunteering

Working on Azizan app for BCF (Barzani Charity Foundation) - Aug 2023 - Oct 2023

It was a great opportunity for me to work on this project that helps orphans to get educated very well by interactive content made by talented instructors and help them to grow up with big dreams and bright futures.
